

PAVILLION ARCHITECTS

Yasser Assem

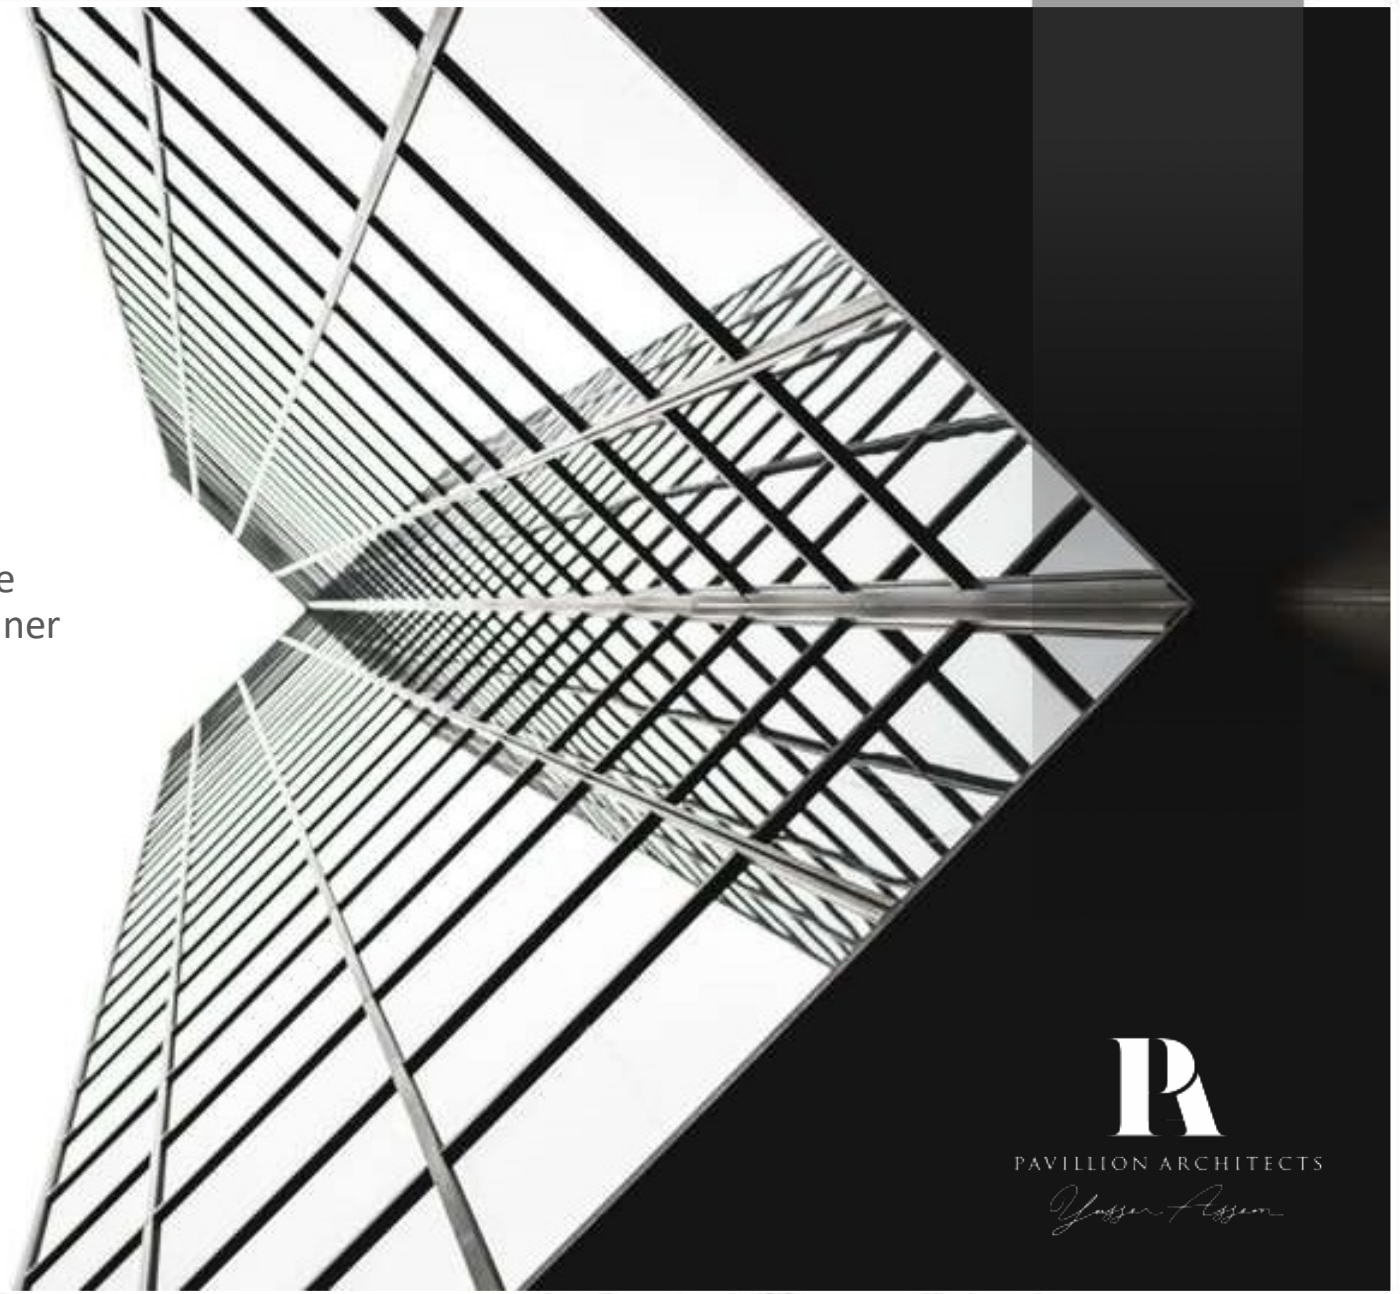

ARCHITECTS, ENGINEERS, PLANNERS, CONSULTANTS, INTERIORS, LANDSCAPE AND GRAPHIC DESIGNERS

from concept to better living

THE ORIGIN

Pavillion Architects is a multi-disciplinary engineering and consulting company. It was initially founded in 1984 as Look Pavillion International by Engineering Consultant

Dr. Yasser Assem in order to efficiently provide clients with state-of-the-art designs, in a manner of which is both time and cost effective.

THE MAGNITUDE

Today, the company has over 150 employees, and currently oversees more than 40 projects located in the Middle East and Africa.

Pavillion Architects is specialized in Architecture, Interior design, engineering consultancy and supervision, and project management.

Today, the company has successfully completed hundreds of projects spanning all over the MENA region;

in addition to Africa in general, and is currently recognized

as one of the top distinguished architectural and engineering consultancy firms in Egypt through its ability to construct some

of Egypt's notable buildings and structures, as well as its ability to professionally accommodate the needs of both; the public and private sectors.

THE INTERNATIONAL ESSENCE

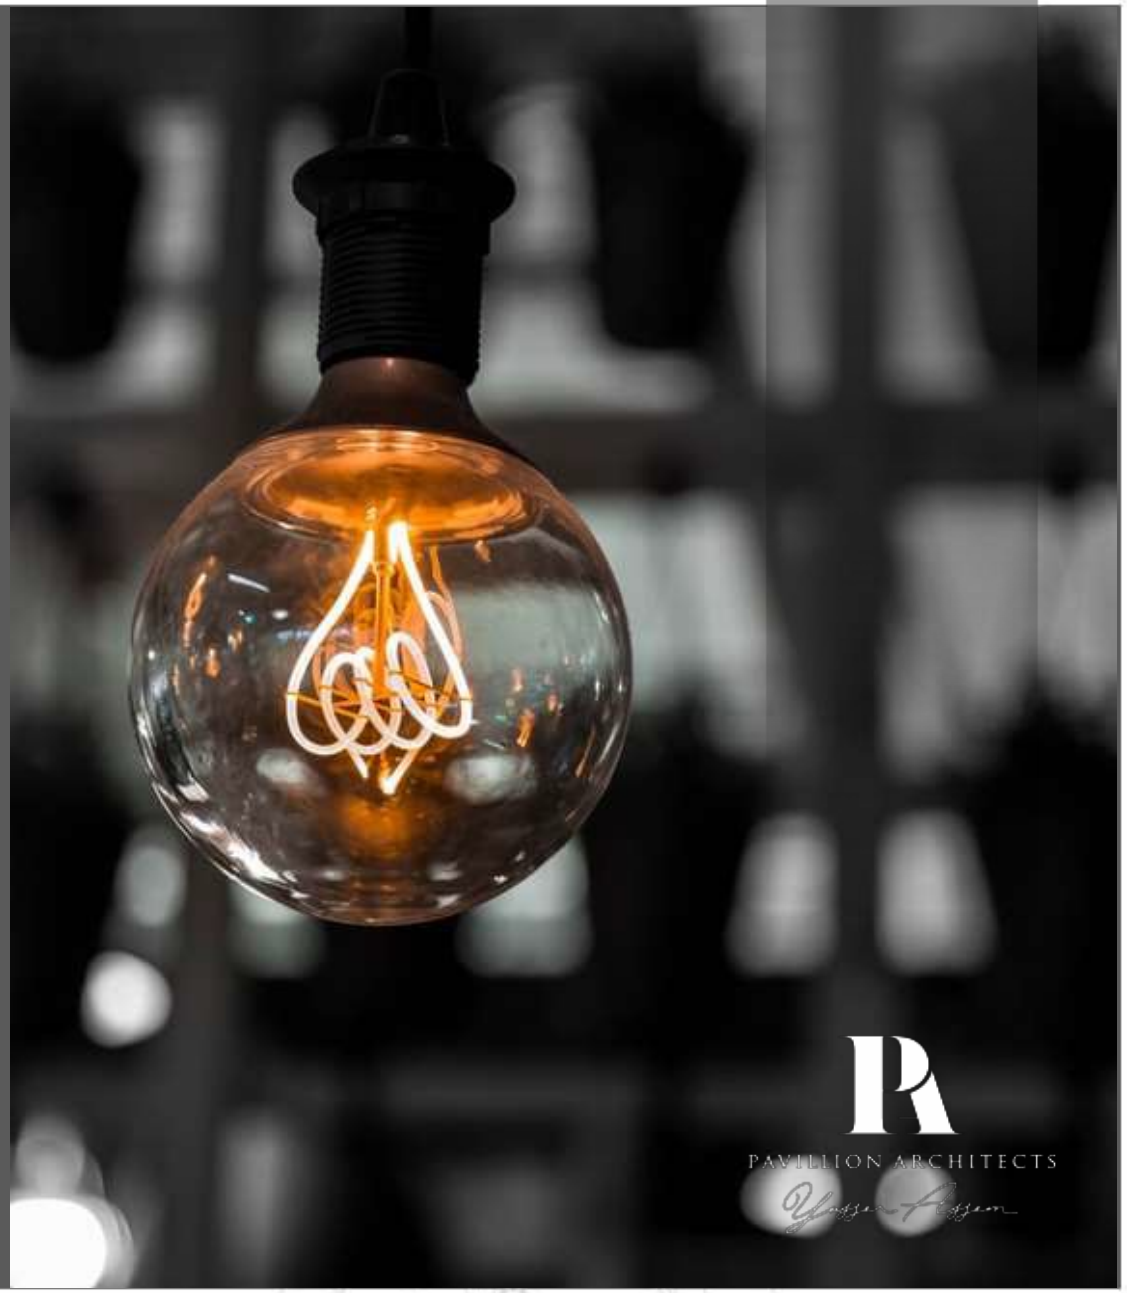

Pavillion Architects' consultancy services include

the conducting of feasibility studies, preparing specifications and tender documents, project management; in addition to, construction supervision.

Pavillion Architects has never had any direct or indirect interest in construction contracting, or with the materials manufacturer /supplier as EPC contractor .

Pavillion Architects have joint venture agreements with multinational firms including USA, UK, France, Spain, Italy,

And Far East matching the project type.

THE CLIENT

The list of clients covers 50,000+hotel rooms since the establishment of the firm.

Moreover, other non-tourism work for the firm includes :
Mix Use Developments Buildings

- Religious Buildings
- Retail
- Office Buildings
- Residential Projects & Housing Interior
- Banks
- Educational
- Public sector
- Towers
- Urban Design , cities , residential compounds

September 2nd, 2016

Crystal Lagoons to develop Africa's largest crystal clear lagoon

Crystal Lagoons has just signed its 10th project in Egypt. This time, the company will develop a 38-hectare crystal clear lagoon.

- The Stella di Mare development will be Africa's largest crystal clear lagoon, and will, furthermore, surpass the one at Sharm El Sheikh--of 12.5 hectares--currently the world's largest man-made lagoon according to the Guinness World Records 2016.

PEACE ICON – EL SALAM SQUARE

The Peace Icon Memorial In Sharm El Sheikh

The designer of the "Peace Icon Memorial" had a achieved a new Guinness record as the largest metal art work.

Engineer Yasser Asim the designer of the peace icon memorial in Sharm El Sheikh said that it's not just a memorial that the all world celebrated with during the economic conference event in the city, but it's a real icon for peace have been designed in a technical uniquely way that combines modernity with the Pharaonic civilization, as a direct message for the whole world that Egypt is the land of peace and the city of Sharm El Sheikh is the icon of peace, pointing out that the real surprise is recording this monument in the Guinness book of records as the largest and longest metal art work in the world.

Assem explained that the overall height of the memorial is 43 meters, which is based on a concrete base covered with black granite and holds the famous Egyptian lotus flower that holds 8 wings that represents the main trends according to the ancient Pharaonic civilization, and this eight wings was inspired by the god "Ra" god of the sun in the ancient Pharaonic civilization.
